## **Recommendation**

That members approve the FE fees for 2026/27 and note the HE fees for 2026/27, as these are set by UHI.

## **Purpose of report:**

To present the FE and HE fees for 2026/2027 and ask for the Finance & General Purposes Committee to approve the FE fees and to note the HE fees, which are set by UHI.

## **Background**

Under the Financial Memorandum between UHI Inverness and UHI EO, the college must set FE tuition fees on an annual basis, with HE fees being set and approved by UHI. The FE fees must be approved by the Finance and General Purposes Committee and the Board of Management before the beginning of the next academic year.

## **FE and HE Fees for 2026/27**

### FE Fees

Currently, each academic partner sets its own FE fees, which means that colleges within UHI currently charge different amounts for the same course. It is our aspiration to see a Single Policy Environment agreed across the UHI Partnership, to enable a single FE tuition fee to be set for each course across all UHI Academic Partners.

In terms of the proposed FE tuition fees for 2026/27, at present, the current inflation rate in January 2026 is 3%. Therefore, the proposal is to increase FE fees by 3% for 2026/27. When considering the FE tuition fees it's worth noting the following:

- The majority of FE students do not pay tuition fees as they meet the eligibility criteria for the Fee Waiver Policy e.g. they are full time Scottish residents or studying part time on the Senior Phase provision or in receipt of benefits.
- Modern Apprentices do not pay fees.
- Commercial fees are set based on market rates with a contribution to overhead/margin on a course by course basis with responsibility for these being delegated to the Vice Principal, Operations & External Relations.

Last year we were able to publish the fees on the UHI Inverness website under each course to make it easier for students to understand the fee liability for their course. All FE fees which are set by the college are noted in appendix 1 of the report.

### HE Fees

In terms of HE tuition fees, as stated above, these are set and approved by UHI on an annual basis. However, one of the major issues regarding HE tuition fees is that HE fees for Undergraduate Degrees and HNs are set by SFC/ SG, and have not changed since 2009/10, 15 years ago. Assuming an average increase of 2% pa over the last 15 years, and the current number of HE student fte's for 2026/27, the college is losing out on almost £700,000 of tuition fee funding from SAAS/ SFC.

The HE fees which are set by UHI are noted in appendix 2 of the report.

## Recommendation

That members note the capital budget monitoring for the year ended 31 July 2026.

## Purpose of report

To update the Committee on the capital budget monitoring for the year ended 31 July 2026.

## Capital Budget Monitoring 2025/26

Capital Funding from the SFC is made up of:

1. HE Capital
2. FE Backlog
3. BIS Funding (Research)
4. FE Lifecycle Maintenance – this can be spent on property additions/improvements; or else annual maintenance and IT equipment. It is more versatile in spend parameters than the other three sources.

As a condition of the SFC capital grant funding, the College has to commit the capital expenditure by 31 March 2026 and to pay the subsequent invoices by 31 July 2026.

The attached spreadsheet shows the grants allocated for the 2025/26 capital plan and these are noted below for each grant:

1. HE Capital – funding of £37,435
2. FE Backlog – funding of £8,018
3. BIS Funding (research) – funding of £28,617
4. FE Lifecycle Maintenance – funding of £109,802

A plan for the use of these funds has been completed and most of the expenditure has now been committed prior to the deadline of 31 March 2026. A copy of the plan is shown in the appendix to the report.

Additionally, UHI Inverness has received an emergency capital grant of £36,000 from SFC for roof repairs to E block at the Scottish School of Forestry.

UNIVERSITY OF THE HIGHLANDS AND ISLANDS

Capital Expenditure Plan 2025-26

Academic Partner

UHI Inverness

Conditions of Funding:

**HE Capital Maintenance**

Capital maintenance funding must be used for estates build/maintenance and/or debt servicing associated with capital developments. All expenditure should be aligned to a university's estate strategy.

**HE BIS (Research Capital Grant)**

HE Research Capital (HERC) grant funding from the UK Department for Science, Innovation & Technology (DSIT) and SFC should be used to enable universities to focus on maintaining excellent departments with the critical mass to compete globally and the expertise to work closely with business, charities and public services.

Funding should be used solely for capital investment in the physical infrastructure for research.

It is recognised that some infrastructure is often used for both research and teaching purposes. HERC funding may be used on such infrastructure so long as spend is proportional to the percentage that is used for research.

All expenditure should be aligned to a university's estate strategy.

HERC funding must be used for, and in line with, the purpose(s) for which it is allocated, as set out above. SFC will consider the recovery of funds or reducing future funding should universities fail to meet those conditions.

The table below should cover all capital investment plans that involve and are funded (fully or in part) by SFC/BIS (as appropriate) capital funding allocations & FE capital grants, and should include partners own contributions. (Please add more rows as necessary)

## Recommendation

Finance & General Purposes committee members are asked to discuss the report.

## Purpose of report

To provide an update on the current forecast position at December 2025, in terms of the revenue budget monitoring for the 12 months ended 31 July 2026.

## Revenue Monitoring – to 31 July 2026

This report provides an update to the committee on the forecast position of the college at the 5 month stage to December 2025, for the year to 31 July 2026.

Overall, the management accounts position is currently forecasting an operational deficit of £2.043 million, compared to the original budget deficit of £0.791 million, an overspend of £1.252 million. The breakdown of each income and expenditure line is provided in appendix 1 of the report.

The college has a FE Credit target for 2025/26 of 26,442 credits and an APC HE fte target of 1,581, with the budget target being 1,666 HE fte. The forecast for FE credits for the year is to meet the FE credit target of 26,442 credits. However, the forecast for HE fte's for 2025/26 is below the budget target by approximately 200 HE fte.

The main issues that are affecting the financial performance for the College in 2025/26 are noted below.

## Income

- **UHI FE grant funding (Red risk)** - the UHI FE grant budget is forecast to be lower than the budget of £10.310 million. This is due to the new revised FE funding model, which has resulted in the forecast being £80,000 below the budget target.
  - **Mitigating Actions:** to maximise the January 2026 student intake and part-time/ block release courses for FE students for the remainder of the year.
- **UHI HE grant funding (Red risk)** - the UHI HE grant target for the year is a total of £7.408 million, with forecast being £6.595 million, a decrease of £813,000. This is due to the forecast HE numbers being approximately 200 HE FTE below the budget target.
  - **Mitigating Actions:** to maximise the January 2026 student intake and part-time/ courses for HE students for the remainder of the year.
- **Research grant funding (Red risk)** – the research grant funding is forecast to be £1.038 million for the year, £210,000 below the budget target of £1.248 million.

## ITEM 04.b

- Mitigating Actions: ongoing work to bring in additional grant income, including UKRI applications, and other grant funding, as well as minimising expenditure.
  
- **Tuition fees (Red risk)** –the tuition fees budget target is £3.131 million for the year, with the forecast currently being £2.950 million, £181,000 below the budget target.
  - Mitigating Actions: to maximise the January 2026 student intake and part-time/ courses for HE students for the remainder of the year.
  
- **Refectory & restaurant income (Green risk)** – the refectory and restaurant income budget target for 2025/26 is a total £634,217, with the full year forecast being £650,000, £16,000 above the budget target.
  
- **SDS income (Amber risk)** – the SDS income budget target for 2025/26 is a total £2,142,000, with the full year forecast being the same amount of £2,142,000.
  
- **Commercial income (Green risk)** – there is no target for commercial income for this year, however it is recognised that commercial income will be generated, with the full year forecast being £50,000.
  
- **Miscellaneous income (Green risk)** – the miscellaneous income target for the year is £874,887, with the full year forecast being £920,000, £45,000 above the budget target due to additional project income.

## Expenditure

- **Staff costs (Red risk)** - are forecast to be £78,000 over budget, with the annual staff budget being £21.079 million. The annual staff budget includes the academic staff pay increase of 4.14%, which has been agreed and is being paid to academic staff and the professional staff cost of living increase also been paid in the January 2026 payroll, including the back-pay. The reason for the forecast overspend in staff costs is due to the increase in temporary staff costs which are used to cover staff illness.  
  
Other staff costs and travel costs are forecast to be the same as the budget for the year to 31 July 2026.
  - Mitigating Actions: to continue to review all vacancies and ascertain whether they should be replaced or not, as part of the Staff Review Panel (SRP) process. Also, continue to review any retrials and ascertain whether they should be replaced or can be replaced through further efficiency measures.
  
- **Premises costs (Amber risk)** - the budget for premises costs for 2025/26 is £1.924 million. The current forecast is that expenditure will be in line with the

budget, although close monitoring of all expenditure lines will be required, especially energy costs during the remainder of the year.

- Mitigating Actions: to continue to review all lines of expenditure and for the remainder of the year, reduce expenditure if possible.
- **Other Operating costs (Amber risk)** – the budget for other operating expenditure for the year is £7.741million. The current forecast is that expenditure will be in line with the budget, although close monitoring of all expenditure lines will be required during the remainder of the year.
  - Mitigating Actions: to continue to review all lines of expenditure and for the remainder of the year, reduce expenditure if possible. The budget review exercise will be carried with budget holders in 2025/26, with the first round of reviews completed in November 2025 and the second round of budget reviews started in February 2026.

### **Student Support Funding**

The Student Support funding (SSF) is forecast to be overspent in 2025/26 by approximately £180,000, compared to an underspend of £287,000 in 2024/25. There was an opportunity, as part of the SFC In-Year redistribution exercise carried out in November 2025, for UHI Inverness to request additional student support funds for 2025/26 and it requested £180,000. We have been informed that we will receive a minimum of £134,000 additional bursary funds for 2025/26 and following an updated forecast, we are estimating a full year forecast of £100,000 below the budget target of £2.197 million. Further updates will be provided over the rest of the AY.

### **Liquidity**

The bank balance at the end of December 2025 was £3.387 million, compared to the bank balance at July 2025 of £4.755 million. The forecast bank balance at 31 July 2026 is £0.700 million, a reduction of £4.055 million compared to the previous years balance. The reduction is due to the forecast deficit position in 2025/26, repayment of SSF underspend of £300,000 in March 2025 and the Longman site sale proceeds of £750,000 included in the 2024 year-end balance.

## Risk Assessment

### Downside Risks

- The continued unfunded cost of living increases for academic and professional staff.
- Job Evaluation was due to complete by 31 March 2023. If monies from the SG are not sufficient to cover the costs, then colleges will have to fund the additional cost themselves.
- The five-year public sector finance forecast which was issued by the Scottish Government, which showed flat funding for revenue grants and reduced capital for five years.
- Although HE FTE numbers are increasing for UHI Inverness, across the UHI partnership they are still below the SFC funded target, which increases the risk of further cuts to the UHI SFC funded number and potentially reduces the funded growth which is required across UHI.
- The UHI microRam continues to add uncertainty to the projections at the year-end.

# 1. BACKGROUND

The original *Code of Good Governance for Scotland's Colleges* was published in December 2014. The Code is reviewed and updated annually by the Good Governance Steering Group. This is the edition for the 2025-26 session.

Colleges Scotland will act as custodian for any future reviews in liaison with the Good Governance Steering Group and in keeping with the way that the Code was created, the broad range of stakeholders who developed the Code will be engaged fully with any revisions. CDN will take responsibility for the production and dissemination of the Code document.

This Code refers to regional colleges, assigned colleges and regional strategic bodies.

## 2. FOREWORD

Colleges in Scotland thrive in the heart of their communities, serving the interests of those communities, students, employers, governments and their agencies and other stakeholders. They have an essential and valuable role in Scottish society. Colleges deliver 68 million hours of learning each year, and 95% of these learning hours lead to a recognised qualification. Across Scotland colleges employ 14,000 staff and deliver education, skills and training to 248,900 students and 14,830 apprentices. .

Colleges receive substantial public funding and also operate in an increasingly commercial and enterprising way. We value the significant contribution college board members make to governing our colleges and regional strategic bodies, and to their stewardship of taxpayer's money, ensuring its efficient and effective use.

Boards are expected to innovate, pursue new opportunities and take measured risks in delivering what is best for their stakeholders.

Against this background, it is right and proper that the highest standards of governance and propriety are expected of our boards and those individuals who serve them. This Code of Good Governance codifies the principles of good

governance for learners and learning that already exist in our colleges and promotes accountability and continuous improvement in how colleges and regional strategic bodies are governed.

The Code is based on key principles and has been written in a way that is mandatory and anticipates compliance. All colleges that receive funding from the Scottish Funding Council (SFC) or from a regional strategic body must comply with the Code as a term and condition of grant. Exceptions should be rare and must be explained publicly.

In addition to demonstrating good governance, colleges and regional strategic bodies must also ensure compliance with their statutory and other obligations. The governance professional role is vital in providing guidance to the board on its legal and other obligations.

Colleges have an important individual and collective role to play in promoting economic, social, and cultural well-being. We expect this Code to provide the essential underpinning to help discharge that role to the highest standards possible.

# 3. CODE OF GOOD GOVERNANCE FOR SCOTLAND'S COLLEGES

## Governance and the Code

### Corporate governance:

- is the way in which organisations are directed and controlled within a legislative and regulatory framework
- defines the distribution of rights and responsibilities among the different stakeholders and participants in the organisation
- determines the rules and procedures for making decisions on corporate affairs including the process through which the organisation's objectives are set
- provides the means of achieving those objectives and monitoring performance.

Scotland's colleges refer to colleges either funded by SFC or by a regional strategic body for the provision of education. Such colleges can be incorporated or non-incorporated. The overarching purpose of good governance for Scotland's colleges is to:

- lead the college, region or regional strategic body and set its strategic direction and values
- ensure effective management and financial controls to support the student experience within a framework of public accountability and transparency
- deliver high quality learning and outcomes.

The *Code of Good Governance for Scotland's Colleges* has been developed and is owned by the college sector. Colleges are required to comply with it as a condition of grant from either SFC or their regional strategic body. It establishes standards of good governance practice for all boards and provides the essential foundations for compliance within the legislative framework.

Boards must not only follow the letter but also the spirit of the Code to ensure good governance. Boards must think deeply, thoroughly and on a continuing basis about their overall tasks and the implications of these for the roles of their individual members. Key to this is the leadership of the chair, the support given to and by the principal, and the frankness and openness of mind with which issues are discussed and tackled by all board members.

### Statement of Compliance with Good Governance

Each board must state its adoption of the Code in the corporate governance statement contained in its annual financial statement. The chair, on behalf of the board, is expected to report as to how the principles have been applied by the board. Where, for whatever reason, a board's practice is not consistent with any principle of the Code, it should make this known to SFC or, if it is an assigned college, the regional strategic body. This should be done immediately they become aware of an inconsistency and, without exception, in advance of publishing the information. An explanation for that inconsistency must be clearly stated in its corporate governance statement. Boards will be expected to offer a clear rationale for exceptions in the context of their college's operational model and to identify mitigations.

Individual board members have a duty to act on serious concerns about the governance of their body. Information on who board members can approach is included in *The Guide for Board Members in the College Sector* available from the College Development Network.

- C.11 The board of a college or a regional body is responsible for the overall management of risk and opportunity. It must set the risk appetite of the body and ensure there is an appropriate balance between risk and opportunity and that this is communicated via the principal to the body's management team.
- C.12 The board must ensure that sound risk management and internal control systems are in place and maintained. It must ensure there is a formal on-going process for identifying, reporting, evaluating and managing the body's significant risks and review the effectiveness of risk management, business continuity planning and internal control systems.

## Audit Committee

- C.13 The Audit Committee must support the board and the principal by reviewing the comprehensiveness, reliability and integrity of assurances including the body's governance, risk management and internal control framework. The Scottish Government Audit and Assurance Committee Handbook promotes the development of an assurance framework to aid the Committee in fulfilling this role. See [Audit and Assurance Committee Handbook](#)
- C.14 The scope of the Audit Committee's work must be defined in its terms of reference and encompass all the assurance needs of the board and the principal. The Audit Committee must have particular engagement with internal and external audit, and must work with management and auditors to resolve any issues in relation to financial reporting.
- C.15 The Audit Committee must promptly pursue recommendations arising from audit reports and must monitor their implementation.
- C.16 The membership of the Audit Committee cannot include the board chair or the principal and, in line with the Audit and Assurance Committee Handbook, 'executive members of the organisation should not be appointed to the Audit and Assurance Committee', and the majority of members must be non-executive. The role of the college executive is to attend meetings at the invitation of the committee chair and to provide information for particular agenda items.
- C.17 The Audit Committee terms of reference must provide for the committee to sit privately without any non-members present for all or part of a meeting if they so decide. The Audit Committee members should meet with the internal and external auditors without the executive team present at least annually.

C.18 At least one member of the Audit Committee should have recent relevant financial or audit experience.

## Remuneration Committee

C.19 It is essential that members of the Remuneration Committee understand their role and responsibilities. Members must undertake the online training module for Remuneration Committees provided by College Development Network within one month of appointment.

C.20 The board must have a formal procedure in place for setting the remuneration of the principal by a designated committee of non-executive members. The board may wish to supplement this by taking evidence from a range of sources. In particular, staff and students should have a role in gathering and submitting evidence in relation to the college principal to the relevant committee.

C.21 The board chair cannot be the chair of the Remuneration Committee (but they can be a member of it).

## Financial and Institutional Sustainability

C.22 The board is responsible for ensuring the financial and institutional sustainability of the body. The board must ensure compliance with its Financial Memorandum (either with SFC or the regional strategic body, depending on which is funding it), including in relation to incorporated colleges and regional boards, relevant aspects of the Scottish Public Finance Manual.

C.23 The board must ensure that:

- funds are used as economically, efficiently and effectively as possible
- effective monitoring arrangements are in place
- college staff report relevant financial matters to it.

C.24 For colleges that are charitable organisations, board members are also charity trustees. The board of a college that is a charity must ensure its members are aware of their responsibilities under charity legislation and for complying with relevant provisions as set out by the Office of the Scottish Charity Regulator. See [OSCR Guidance and Good Practice for Charity Trustees \(02.04.25\)](#)

## Staff Governance

C.25 The college board as the employer, is responsible for promoting positive employee relations and for ensuring effective partnership between recognised trade unions and management.

C.26 The board must have a system of corporate accountability in place for the fair and effective management of all staff, to ensure all legal obligations are met and all policies and agreements are implemented and identify areas that require improvement and to develop action plans to address them.

C.27 The college board must comply with collective agreements placed on it through national collective bargaining for colleges.

## Section D: Effectiveness

### The Board Chair

D.1 The chair is responsible for leadership of the board and ensuring its effectiveness in all aspects of its role. The chair is responsible for setting the board's agenda and ensuring that adequate time is available for discussion of all agenda items, particularly strategic issues. The chair must promote a culture of openness and debate by:

- encouraging the effective contribution of all board members
- fostering constructive challenge and support to the principal, executive team and fellow board members
- effective team-working
- positive relations between board members.

The chair must engage with the principal and the governance professional in a manner which is both constructive and effective.

D.2 The board and its committees must have the appropriate balance of skills, experience, independence and knowledge of the body to enable them to discharge their respective duties and responsibilities effectively.

### Senior Independent Member

D.3 The board must appoint one of the non-executive members to be the senior independent member to provide a sounding board for the chair and to serve as an intermediary for the principal, other board members and the governance professional when necessary (see Annex 1 for the definition of 'non-executive'). The senior independent member should also be available where contact through the normal channels of chair, principal or governance professional has failed to resolve an issue or for which such contact is inappropriate. The senior independent member is also responsible for holding annual meetings with Board members, without the Chair, to appraise the Chair's performance and provide the Chair with relevant feedback

Further information on the role of the senior independent member can be found in [The Guide for Board Members in the College Sector](#).

## Board Members

- D.4 Each board member is collectively responsible and accountable for all board decisions. Board members must make decisions in the best interests of the college and/or region as a whole rather than selectively or in the interests of a particular group.
- D.5 Staff, student and trade union board members are full board members and bring essential and unique, skills, knowledge and experience to the board. Staff, student and trade union board members must not be excluded from board business unless there is a clear conflict of interest, in common with all board members.
- D.6 Where the college is a charity, all board members, as charity trustees, including staff, student and trade union board members, have legal duties and responsibilities under the Charities Act 2005. This includes registering any personal interests that could be seen as conflicting with the interests of the body. The 'objective test' for judging if there is a conflict of interest is:
- "... whether a member of the public, with knowledge of the relevant facts, would reasonably regard the interest as so significant that it is likely to prejudice your decision making in your role as a member of a public body".*
- D.9 The college board must delegate to the principal, as chief executive, authority for the academic, corporate, financial, estate and human resource management of the college, and must ensure the establishment of such management functions are undertaken by and under the authority of the principal.
- D.10 The college board must ensure a clear process is in place to set and agree personal performance measures for the principal. This process should seek the views of students and staff. The chair, on behalf of the board, should monitor, review and record the principal's performance, at least annually, against the agreed performance measures.
- D.11 The principal, as a board member, shares responsibility for good governance with the chair and all other members of the board, supported by the governance professional. The principal also enables good governance through supporting effective communication and interaction between the body and the rest of the college including staff and students.
- D.12 The board provides strategic direction for the region and/or college, and the chair provides leadership to the board. The principal provides leadership to the staff of the body.
- D.13 The board must provide a constructive challenge to the principal and executive team and hold them to account.

## Principal and Chief Executive

- D.7 The college board must appoint the principal as chief executive of the college, securing approval for the appointment and terms and conditions of the appointment from the regional strategic body if necessary.
- D.8 The college board must ensure there is an open and transparent recruitment process for the appointment. Students and staff must have an opportunity to contribute to the recruitment process.

## Governance Professional

D.14 The board must appoint a governance professional who is responsible to it and reports directly to the chair in their governance professional capacity. The governance professional may be a member of the senior management team in their governance professional capacity, but they cannot hold any other senior management team position at the same time. The appointment and removal of the governance professional is a decision of the board.

D.15 All board members must have access to the governance professional who has an important governance role in advising the board, the committees and individual board members and supporting good governance. The distinctive governance professional role includes:

- facilitating good governance and advising board members on:
  - the proper exercise of their powers, including in relation to relevant legislation
  - the board's compliance with its Financial Memorandum, the Code for Good Governance, its Standing Orders and Scheme of Delegation
  - their behaviour and conduct in relation to the board's Code of Conduct.

- providing clear advice to the chair and the board/committees on any concerns the governance professional may have that board members have not been given:
  - sufficient information
  - information in an appropriate form
  - sufficient time to monitor, scrutinise or make informed and rigorous decisions in an open and transparent way.
- attending and providing support to every board meeting and every meeting of every board committee. Where the governance professional is unable to attend, while the governance professional retains overall responsibility, proper arrangements must be made to cover the role with a person who is fully able to discharge the role effectively.
- having an unambiguous right to speak at board and committee meetings to convey any concerns they may have about governance. This extends to someone substituting for the governance professional.
- reporting any unresolved concerns about the governance of the body to the relevant funding body (i.e., SFC or the regional strategic body).

D.16 The board must ensure the governance professional:

- has suitable skills, knowledge and behaviours to carry out their role effectively
- receives appropriate induction, and if new to the role, is mentored by a more experienced governance professional for at least their first year
- has adequate time and resources available to undertake their role effectively.

D.17 The board must ensure arrangements are in place to deal with a governance professional's potential or real conflicts of interest.

## Board Member Appointment, Induction and Training

- D.18 For boards with responsibility for board appointments, the board must ensure a formal and open procedure is in place for recruiting and selecting new non-executive board members. Boards must have regard to current Ministerial Guidance on board appointments.
- D.19 The board is responsible for ensuring appropriate arrangements are in place for the conduct of student elections and nominations, and elections and nominations of staff and trade union members to the board.
- D.20 The chair must ensure that new board members receive a formal induction on joining the board, tailored in accordance with their individual and collective needs. The governance professional should support the chair in the provision of relevant induction for new board members.
- D.21 The board must ensure all board members undertake appropriate training and development in respect of their governance role. The governance professional should support the chair in the provision of relevant training and development opportunities for board members, which should be tailored to meet board members skills and needs. The governance professional must keep records of the development activity of board members, including the chair.
- D.22 The board must ensure that new committee members receive a committee induction and have their specific training needs assessed and met.

## Board Evaluation

- D.23 Extension of the term of office of board appointments requires evidence and the board must ensure appropriate mechanisms are in place to support this.
- D.24 The board must keep its effectiveness under annual review and have in place a robust self-evaluation process. There should also be an externally facilitated evaluation of its effectiveness every three to five years. The board should determine the timing for this externally facilitated review as part of the annual effectiveness review. The board is not required to conduct a self-evaluation of its effectiveness in the same year as an externally facilitated evaluation. The board must send its self-evaluation (including an externally facilitated evaluation) and board development plan (including progress on previous year's plan) to its funding body and publish them online.
- D.25 The board must agree a process for evaluating the effectiveness of the board chair and the committee chairs. The evaluation of the board chair should normally be led by the senior independent member.
- D.26 The board must ensure all board members are subject to appraisal of their performance, conducted at least annually, normally by the chair of the board.
- D.27 The performance of regional college chairs will also be evaluated by the Scottish Government, as regional college chairs are appointed by the Scottish Ministers and are personally accountable to them.
- D.28 The performance of assigned, incorporated college chairs will also be evaluated by the regional strategic body, as they are appointed by the regional strategic body and are personally accountable to them.

## Section E: Relationships and Collaboration

### Partnership Working

- E.1 The board must work in partnership to secure the coherent provision of high quality fundable further and higher education in their localities.
- E.2 The board must ensure effective consultation, local and regional planning and must follow the principles of effective collaborative working: mutual respect, trust and working towards commonly agreed outcomes.
- E.3 The board must ensure effective partnership working with local and national bodies including businesses, public and third sector organisations to develop commonly agreed priorities following the principles of effective collaborative working.
- E.4 The board must encourage and support effective partnership working and collaboration within and across regions to address local needs and meet national priorities and specialisms.

# ANNEX 1

## References and Definitions

- “**college**” means a college funded by either SFC or a regional strategic body.
- “**incorporated college**” means a college with a board of management under part 1 of the Further and Higher Education (Scotland) Act 1992.
- “**assigned college**” means a college assigned to a regional strategic body.
- “**board**” means the governing body of the college or to the regional strategic body.
- “**body**” means the organisation in question, i.e., a college or regional strategic body.
- “**principal**” includes where appropriate in the context, the chief officer or equivalent person of a regional strategic body.
- ‘**non-executive**’ means a member who is not the chair of the board and who does not otherwise hold a specific position on the board i.e., is not a student member or a staff or trade union member; and in the case of a college board, is not the principal; and in the case of a regional board is not the chair of an assigned college.
- The reference to a non-executive majority under C.7(d) reflects the underlying governance principle of ensuring an appropriate degree of independence and objectivity in all board decision-making. A board quorum should always require a non-executive majority. When determining a quorum, the chair of the board may be considered to be a non-executive member.
- The Court of the University of the Highlands and Islands (UHI) is the Regional Strategic Body (RSB) for the region and is the only RSB in Scotland.

**Purpose of report**

To raise awareness of current activities that have legal implications under data protection law and/or or carry a potential risk (data security, information risk, financial or reputational risk). Also, to demonstrate the breadth of impact of data protection legislation across the organisation.

**CCTV Activity**

The following report was provided to this committee in February 2025.

*“GTFM have recently appointed a new contractor for planned and preventative maintenance on the CCTV system. The situation is complex in that GTFM own the equipment and the college owns the recorded data.*

*A 3 way agreement is required between the college (as Data Controller), GTFM and the contractor (Data Processors) to govern access to the system for maintenance purposes. The risks that need to be mitigated relate to:*

- *privacy invasion (potential to people watch on live stream)*
- *Data Security (security of recorded footage)*
- *Building security (access to camera locations, cameras view/positioning)*

*Action is underway to take this forward as both GTFM and the contractor are keen for work to be undertaken remotely (where possible) as this is more cost and time efficient.”*

Unfortunately, little progress has been made. A tripartite agreement was drafted and issued to both GTFM and their contractor back in September 2025. To date, neither party has offered any formal response to the document.

The purpose of the document is to outline the procedural boundaries and security arrangements to be followed, to protect all parties and ensure the on-going security of the system and recorded footage.

The situation regarding maintenance of the CCTV system (to address reported faults) continues to be problematic without an agreed protocol in place. A recent site visit to rectify a fault (7 cameras reported as not recording) resulted in the cameras being fixed

but 30 days recorded footage having been erased from 25 different cameras. We have no control over the contractor as they have been engaged by GTFM. The aim is for all 3 organisations to agree the procedures to be followed both for on-site and remote fault rectification.

The matter has been reported to both the Estates & Campus Services Manager and the Director of Finance and Estates, who are taking the matter forward.

### **UHI Transformation Project Work**

It's difficult to assess how things currently stand from a data protection/information security perspective as there is little oversight of what is going on. The UHI Information Governance Group was created to oversee the Transformation Group Activities from a governance perspective. However, at times, the project has galloped forward at a fast pace, showing blatant disregard for the procedures put in place to protect the network and mitigate risk.

There has been some retrospective activity which appears little more than a box ticking exercise (completion of data protection impact assessment for the processing of personal data related to the FBC). Things have since moved on so it's impossible to mitigate risks once the work activity has taken place. This results in no learning or knowledge gained by those involved, leaving the partnership further exposed as work continues.

### **Compliance Monitoring**

Department GDPR compliance monitoring normally takes place between March-May. Activity is focussed on the departments processing high volumes of personal data and those where information risk is higher e.g. Admissions, Enrolment, Funding, Finance and HR (the Estates team are also included due to the management of contractors).

No compliance monitoring was undertaken during 2024/25. This was due largely to the work required to process a sizable Subject Access Request, in addition to the Data Controller reducing their working hours to 3 days per week.

There was also a university wide concern, regarding the volume of data stored within Outlook mailboxes.

Time available for monitoring compliance was re-allocated to focus on records management across the whole college as centrally within UHI a limit of 15GB was to be applied to all mailboxes (from 1<sup>st</sup> August 2025). Failure to address the issue would have resulted in mailboxes being frozen with users unable to send or receive communications.

Short training sessions were offered on MS Teams to groups of staff and teams to show effective ways of reducing data. Numerous 1:1 sessions were also necessary to support staff to deal with the situation. The ICT department provided monthly reports listing each staff member's storage status. These were used to target individuals and teams to ensure the necessary work was undertaken by 31<sup>st</sup> July.

As a result of redirecting compliance monitoring to a different activity, all staff mailboxes were reduced to below the 15GB limit before the start of 2025/26.
