WHY CHOOSE ACTIVE TRAVEL?

Cycling is fast and convenient.
It is often quicker to travel by bike than by bus or car in the city. Cycle parking is easy and free.

It helps you stay fit and healthy.
Incorporating exercise into your daily routine helps you to achieve the recommended 150 minutes of exercise a week which will help keep you mentally and physically healthy.

It benefits the environment.
Active travel contributes to quieter streets and cleaner air. Driving less could mean a mixture of walking, cycling, e-biking, car sharing and using public transport for some of your journey.
