INTRODUCTION AND BACKGROUND

1 General Provisions

- 1.1. The Further and Higher Education (Scotland) Act 1992, ('the Act') created a framework for Further Education Colleges offering both full-time and part-time education to act as free corporate bodies, with powers to employ staff and to own land and buildings. From 1 April 1993, they were funded directly from Government, through the Scottish Funding Council (SFC), and taken out of local authority/ education authority controls. In October 2010, the UK Office for National Statistics (ONS) took the decision to reclassify further education colleges throughout the UK as public bodies, with the result that they are now treated as part of central government for budgeting, reporting, and accounting purposes.
- 1.2. The Financial Memorandum with Fundable Bodies in the College Sector sets out the formal relationship between the SFC and college sector fundable bodies and the requirements with which funded bodies must comply as a term and condition of SFC grant. This memorandum was issued by the Scottish Further Education Funding Council effective from 1 December 2014. The current Financial Memorandum for Inverness College UHI is between UHI (the Regional Strategic Body) and Inverness College UHI and came into effect on 1 January 2016 (Appendix A). The Board of Management is responsible for ensuring that the conditions of grants are met. As part of that process, the College must ensure that it has sound systems of internal financial and management controls. The Financial Regulations of the College form part of this overall system of accountability and control.
- 1.3. The Financial Regulations should be read in conjunction with publications and guidelines from the following resources:
 - Statement of Recommended Practice
 - Audit Scotland
 - Accounting Standards
 - Scottish Parliament Audit Committee
 - HE College Administrative Schemes
 - Scottish Funding Council (SFC)
 - Scottish Public Finance Manual
 - Finance Manual – Inverness College
 - Inverness College UHI Board of Management Articles of Governance
 - HM Treasury Financial Reporting Manual

2 Status of Financial Regulations

- 2.1. This document sets out the College's Financial Regulations. It translates into practical guidance, the College's broad policies relating to financial control.

- 2.2. These Financial Regulations are subordinate to Inverness College's instruments and articles of governance and to any restrictions contained within Inverness College's Financial Memorandum.
- 2.3. The purpose of these Financial Regulations is to provide control over the totality of the College's resources and provide management with assurances that the resources are being properly applied for the achievement of the College's Strategic Plan and business objectives, these include:
- Financial viability
 - Achieving value for money
 - Fulfilling its responsibility for the provision of effective financial controls over the use of public funds
 - Ensuring that the College complies with all relevant legislation
 - Safeguarding the assets of the College
- 2.4. Compliance with these Financial Regulations is compulsory for all staff connected with the College. Any staff member who fails to comply with the financial regulations may be subject to disciplinary action under the College's Disciplinary policy. It is the responsibility of managers to ensure that staff are made aware of the existence and content of these Financial Regulations.
- 2.5. The Finance and General Purposes Committee is responsible for overseeing, reviewing and approving the Financial Regulations, through the Director of Finance.
- 2.6. In exceptional circumstances, the Principal may authorise a departure from the detailed provision herein, such departure to be reported to the Finance and General Purposes Committee at its earliest opportunity.
- 2.7. Inverness College's detailed Financial Procedures set out how these regulations will be implemented and are contained in the Finance Manual.

CORPORATE GOVERNANCE

3 Responsibility of the Principal and Chief Executive

- 3.1. The College Principal is responsible for the detailed administration of the College and will act as the Chief Executive and the Board's Chief Educational advisor.

- There is effective planning and delivery of the College's activities in accordance with its mission and its commitments to the Regional Outcome Agreement agreed with SFC

It is an offence under the Prevention of Corruption Act 1906, the Bribery Act and the Staff Code of Conduct to accept any gift or consideration as an inducement or reward for doing, or refraining from doing, anything in an official capacity or showing favour or disfavour to any person in an official capacity. The guiding principles to be followed by all members of staff must be:
 - The conduct of individuals should not create suspicion of any conflict between their official duty and their private interest.
 - The action of individuals acting in an official capacity should not give the impression (to any member of the public, to any organisation with whom they deal or to their colleagues) that they have been (or may have been) influenced by a benefit to show favour or disfavour to any person or organisation. Staff members should seek guidance from the Director of Finance when there is an offer of gifts or hospitality. For the protection of staff, the College Secretary will maintain a register of gifts and hospitality received where the value is in excess of £20.00. All relevant details should be passed on via the [Gifts and Hospitality Form](#).
 - Gifts or hospitality received must be reasonable and proportionate to the nature of the relationship and must be accepted for the primary purpose of better presenting the College or establishing cordial relationships with business partners.
 - At all times staff must follow guidelines as contained within the staff Code of Conduct.

11 Financial Planning

- 11.1. The Director of Finance is delegated responsibility by the Principal and Chief Executive for preparing annual financial plans for approval by the Board of Management, on recommendation from the Finance and General Purposes Committee, and for preparing financial forecasts for submission to the funding

body. Financial plans should be consistent with the strategic plans and Estates strategy approved by the Board of Management.

12 Resource Allocation

- 12.1. Resources are allocated annually by the College's Senior Management Team and recommended to the Board of Management through the Finance and General Purposes Committee, on the basis of the above objectives. College managers are responsible for the economic, effective and efficient use of resources allocated to them.

13 Budget Preparation

- 13.1. The Director of Finance is responsible for preparing an annual revenue budget and capital programme for consideration by the Finance and General Purposes Committee before submission to the Board of Management for approval.
- 13.2. The budget should include monthly cash flow forecasts for the year. The Director of Finance must ensure that detailed budgets are prepared in order to support the resource allocation process and that these are communicated to College managers following approval by the Board of Management.
- 13.3. Throughout the year, the Director of Finance is responsible for submitting revised budgets to the Finance and General Purposes Committee and the Board of Management.

14 Capital Expenditure Programme

- 14.1. The capital programme includes all expenditure on land, buildings, equipment, furniture and associated costs, whether or not they are funded from capital grants, to be capitalised for inclusion in the College's financial statements. The College's capital programme is approved by the Finance and General Purposes Committee.
- 14.2. The Director of Finance will establish procedures for the inclusion of capital projects in the capital programme for approval by the Finance and General Purposes Committee. These will set out the information that is required for each proposed project as well as the financial criteria that they are required to meet. These are shown at Appendix C.

The information that is required for each proposed development as well as the financial criteria that they are required to meet are summarised at Appendix D.

17 Financial Control

- 17.1. The control of income and expenditure within an agreed budget is the responsibility of the designated Budget Holder, who must ensure that day-to-day monitoring is undertaken effectively. Budget Holders are responsible for managing their budgets such that income targets are achieved and expenditure limits are not exceeded. Subject to the approval of the Senior Management Team, and conditional on other budgets being satisfactorily controlled, expenditure may include a proportion of additional income generated during the year.
- 17.2. Significant departures from agreed budgetary targets must be reported immediately to the Director of Finance by the Budget Holder concerned and, if necessary, corrective action taken.
- 17.3. The College's specific delegated financial limits are set out in Appendix G. The institution must obtain SFC's prior written approval, through the Regional Strategic Body, before entering into any undertaking to incur any expenditure that falls out with these delegations.
- 17.4. Prior SFC approval, through the Regional Strategic Body, must always be obtained before incurring expenditure for any purpose that is, or might be considered, novel, contentious or repercussive or which has or could have

significant future cost implications. Novel is interpreted as involving proposed expenditure or financial arrangements of a sort not undertaken previously or which is not standard practice. Contentious would include proposed expenditure or financial arrangements where there was any doubt as to its regularity e.g. its compliance with relevant legislation or guidance – or its propriety – e.g. compliance with the standards expected of publicly funded bodies or their officials. Proposed expenditure or financial arrangements that might be considered to be sensitive would also be regarded as contentious.

18 Financial Information

18.1. Budget Holders are assisted in their duties by management information provided under arrangements approved by the Director of Finance. The types of management information available to the different levels of management are described in the detailed Financial Procedures, together with the timing at which they can be expected.

19.1. Changes proposed to the approved College budget must be considered by the Finance and General Purposes Committee and if required the Board of Management.

20 Virement

Buildings will be depreciated in equal instalments over their estimated remaining useful life. Land will not be depreciated.

- 26.2. Expenditure incurred on repairs, refurbishment or extension of existing buildings will be capitalised where it can be demonstrated that the work represents an improvement to the original specification of the building, and the resultant building value would be greater than the current book value.

- 26.3. Expenditure incurred on the acquisition of assets other than land and buildings will be recorded in the balance sheet where the acquisition cost is £5,000 or more. Capitalised assets other than land and buildings will be depreciated in line with the College's accounting policies.
- 26.4. Where capital assets are funded by SFC or other government grant, a capital grant balance will be established and will be released to income over the useful life of the asset.

Note that financial statements are only fully approved once they have been laid before Parliament and no publication can take place before this.

29 Taxation

- 29.1. The Director of Finance is responsible for advising managers, in the light of guidance issued by the appropriate bodies and relevant legislation as it applies, on all taxation issues relating to the College.
- 29.2. The Director of Finance shall ensure compliance with statutory requirements including those concerning VAT, PAYE, national insurance, corporation tax and import duty. This will include provision for maintaining the College's tax records, making all tax payments, receiving tax credits and submitting tax returns by their due date as appropriate.

Their duties will be in accordance with advice from Audit Scotland.

32 Fraud and Corruption

- 32.1. It is the duty of all members of staff, management and the Board Members to notify the Director of Finance immediately whenever any matter arises which involves, or is thought to involve, irregularity, including fraud, corruption or any other impropriety. It will be used to enable the Audit Committee to refer to value for money in its annual report.

34 Other Auditors

The College may, from time to time, be subject to audit or investigation by external bodies such as the funding body, Audit Scotland, European Court of Auditors, HM Revenue and Customs. They have the same rights of access as external and internal auditors.

TREASURY MANAGEMENT

35 Treasury Management

- 35.1. The College has a Treasury Management procedure (contained in the Financial Procedures) setting out the College position on cash management, investments and borrowings. This must comply with the SFC rules regarding approval for any borrowing.
- 35.2. All executive decisions concerning borrowing, investment or financing (within policy parameters) shall be delegated to the Principal and Chief Executive or the Director of Finance who will prepare an appropriate reporting system. APPENDIX C - Capital Expenditure Appraisal

Purpose: to ensure that all capital expenditure proposals are suitably evaluated and properly authorised.

Outline capital expenditure proposals must be consistent with the aims and objectives of the College Strategic and Operational Plans, and also, where appropriate, other strategies and policies, including the Estates and ICT. Specific reference should be made in any proposal to the objective within the Strategic Plan that the proposal links to.

Any capital expenditure proposal should also include the following:

- The specification of the needs and objectives of the proposal within the context of the organisation's strategic plans.
- The identification of all available options.
- The valuation of the costs, benefits, timing and risks involved. The costs of the project must include any professional fees associated and also VAT.
- The identification of any available funding.
- The analysis of the results and assessment of affordability.
- The recommendation for the option selected.
- The extent and scope of the appraisal process will vary depending on the scale of the expenditure and the nature of the project. The extent of the appraisal will be determined by the Senior Management Team and will normally be carried out during the planning process cycle.

Capital Expenditure procedures must comply with the financial memorandum issued by the SFC (see Appendix 1), and for major projects, observe any specific procedural notes issued by the SFC. Proposals for all major projects will require to be supported by a full business plan.

Projects will be ranked by the Senior Management Team (SMT) in terms of priority to facilitate the decision making process and impose strict budgetary control. Available grant funding and the criteria and timing constraints imposed by grant providers will influence the evaluation process and the ranking of projects.

SMT will advise relevant College managers when approval has been given for capital expenditure. Finance will incorporate the expenditure into the annual capital expenditure plan.

If an organisation invests in a project, it expects a return, and deciding on a project involves making a long-term decision. One of the things organisations consider is the time value of money – if I have £5 now, how much is it worth in 4 years time? This is where we use the Net Present Value (NPV) method to appraise an investment opportunity. The other two main ways are the Internal Rate of Return (IRR) and the Payback method. The three methods are described below and assistance in their calculation can be sought from Finance.

The Principles of Discounted Cash Flow

The basic principle of discounting is that if we wish to have £x in so many years time, we need to invest y at an interest rate of z in order to get that sum of money.

Present value just means the amount of money which must be invested now to make a certain amount of money in so many years time.

Capital Investment Appraisal – Net Present Value (NPV) method

Discounted cash flow methods can be used to appraise capital investment projects. The two main methods are NPV and IRR, but there is also the payback method.

Net present value method - calculates the present values of all items of income & expenditure related to a project at a given rate of return & calculates a net total. If it is positive, then it is ok to invest in that project, but if it is negative, it is not a good investment.

Capital Investment Appraisal – Internal Rate of Return (IRR) method

The IRR method determines the rate of interest (the internal rate of return) at which the NPV is zero. The internal rate of return is therefore the rate of return on an investment.

The IRR method will indicate if a project is viable if the IRR exceeds the minimum acceptable rate of return.

Capital Investment Appraisal – Payback method

The payback period is the time that is required for the inflows to equal the outflows. Before it can be calculated, you must know the initial cash outflow & the estimate of future earnings/ savings.

There are two ways to use the payback period:

- a) Accept project with the shortest payback period.
- b) Have a payback period limit, where only projects which are less than the period limit will be accepted.

The Payback method is often used as a first step in project appraisal but it should not be used alone for decisions. If it passes the payback test, NPV or IRR should then be used.

APPENDIX D - Summary of Protocols for Proposed Major Developments

Any proposal for major developments should be supported by a business plan for at least three years, which sets out:

- a demonstration of the proposal's consistency with the strategic plans approved by the governing body and with the College's powers under current legislation;
- details of the market need and the assumptions (based on reference data) of the level of business available;
- details of the business and what product or service will be delivered;
- an outline plan for promoting the business to the identified market and achieving planned levels of business;
- details of the staff required to deliver, promote and manage the business, together with any re-skilling or recruitment issues;
- details of any premises and other resources required;
- a financial evaluation of the proposal together with its impact on revenue and surplus, plus advice on the impact of possible alternative plans and sensitivity analyses in respect of key assumptions;
- contingency plans for managing adverse sensitivities;
- consideration of taxation and other legislative or regulatory issues; and,
- At least a three-year financial forecast for the proposal including a cash flow forecast and details of the impact on the College cash flow forecast for the financial years in question.

APPENDIX E - Internal Audit Responsibilities

The primary responsibility of the internal audit service is to provide the funding body, the Board of Management and managers of the College with assurance on the adequacy and effectiveness of the internal control system, including risk management and governance. Responsibility for internal control remains with management, who should recognise that internal audit can only provide 'reasonable assurance' and cannot provide any guarantee against material errors, loss or fraud. Internal audit also plays a valuable role in helping management to improve systems of internal control and so to reduce the potential effects of any significant risks faced by the College. Risk management provides the opportunity for internal audit work to be efficient and focused. It does not necessarily imply that internal audit activity has to be increased.

Internal audit can also provide independent and objective consultancy advice specifically to help management improve the internal control system, including risk management and governance. In such circumstances, internal auditors apply their professional skills in a systematic and disciplined way to contribute to the achievement of corporate objectives. Such advisory work contributes to the opinion that internal audit provides on internal control, including risk management and governance.

APPENDIX F – Procurement Thresholds

Inverness College UHI work with [Advanced Procurement for Universities and Colleges](#), to support the development of advanced procurement across the further and high education sector in Scotland.

The college has also signed up to the [Scottish Government's Suppliers' Charter](#) as part of our commitment to working together with other Public Sector buying organisations and Scottish businesses in order to improve public sector procurement processes and dialogue. When calculating the contract value, for a one-off purchase, the total cost of the good(s) or service(s) will provide the contract value. If the purchase is a recurring spend, the College will calculate the value over 4 years to establish the total contract value.

A national framework or local contract that meets the requirements must be used in the first instance for all tendering activity.

Inverness College is committed to carrying out procurement activities in an environmentally, socially, ethically and economically responsible manner and to entering into agreements and contracts with suppliers that share and adhere to its vision. Inverness College demonstrate this through its promotion of the APUC Supply Chain of Conduct. A copy of the APUC Supply Chain of Conduct is located in the Finance Manual.

Working towards cost savings and cost avoidance is paramount with greater focus towards improved efficiencies, contract management and budget/cost management will be monitored.
