

OTHER COURSES

INSIGHT INTO TEACHING

SCQF Level 7

This course is aimed towards those considering entering a teaching profession. It is designed to develop some of the core skills for teaching and consists of two SQA Units: Lifespan Development Theoretical Approaches and Supporting Children and Young People with Additional Support Needs.

To apply please contact your guidance teacher who will then approach the Schools Team.

Course content

Lifespan Development Theoretical Approaches

This Unit enables learners to understand the stages and strands of human development across the lifespan. Drawing on contemporary debate and research will further enhance learners' understanding of the complexities of human development and enable them to consider contributions from psychological approaches related to all ages and stages of human development.

Supporting Children and Young People with Additional Support Needs

This Unit is designed to enable learners to gain knowledge and understanding of additional support needs of children and young people and how to meet those needs in practice in relation to current legislation and policy. The Unit will also enable learners to explore agencies and professionals engaged in offering support to children and young people with additional support needs and their families.

+ 2 other additional option modules are available alongside this.
